

HS_Standard

M/F : 800,000 KRW

-Instruction and Prep

-Required time : 2 to 3 hours

-Prep : Fast for at least 8 hours

Category	Details
Genetic panel – 5 types	Male : Prostate, colon, lung, liver, pancreas Female : Cervical, breast, thyroid, liver, ovarian
Stomach exam (Choose one)	1. Gastroscopy under sedation 2. Gastroscopy without sedation 3. U.G.I (Upper Gastrointestinal) 4. Gastro panel (Blood test)
Ultrasound	Upper abdomen, Thyroid, Prostate (male), Uterus (female), Carotid
Cardiovascular test	Electrocardiogram(EKG), Pulse Wave Velocity(Arteriosclerosis)
Urinalysis	Glucose, Bilirubin, Ketone body, S.G, PH, Protein, Urobilinogen, Nitrite, Uric blood, RBC, WBC
Blood test	-Liver function, Dyslipidemia, Kidney function, Diabetes, Anemia, Pancreatic function, Electrolyte, Hepatitis, Cardiovascular risk, Rheumatism & Gout, Thyroid function test -Complete Blood Count (CBC) -Tumor markers(AFP, CEA, CA19-9, PSA (male), CA 125 (female))
Radiology	Chest X-ray, BMD (Bone Mineral Density)
Eye Exam	Vision, intraocular pressure, fundus
Basic Physical Measurements	Height, weight, body composition, BMI, blood pressure, Hearing test

HS_Enhanced

M/F : 1,300,000 KRW

-Instruction and Prep

-Required time : 2 to 3 hours

-Prep : Fast for at least 8 hours

-Info of colonoscopy : Please refer to the separate instructions

-M2-PK : Collect the stool sample using the kit provided the day before and submit it on the day of your checkup

Category	Details
Genetic panel - 10 types	-Male : Prostate, colon, lung, liver, stomach, pancreas, thyroid, kidney, esophagus, biliary tract -Female : Cervical, breast, thyroid, liver, ovarian, endometrial, biliary tract , stomach, colon, pancreatic
Chest(Lung) CT	Detect Lung cancer
Group A (Choose one)	1. Colonoscopy under or without sedation 2. M2-PK 3. 13 types of Heavy metal & Mineral test 4. Echocardiography
Stomach exam (Choose one)	1. Gastroscopy under sedation 2. Gastroscopy without sedation 3. U.G.I (Upper Gastrointestinal) 4. Gastro panel (Blood test)
Ultrasound	Upper abdomen, Thyroid, Prostate (male), Uterus (female), Carotid
Cardiovascular test	Electrocardiogram(EKG), Pulse Wave Velocity(Arteriosclerosis)
Urinalysis	Glucose, Bilirubin, Ketone body, S.G, PH, Protein, Urobilinogen, Nitrite, Uric blood, RBC, WBC
Blood test	-Liver function, Dyslipidemia, Kidney function, Diabetes, Anemia, Pancreatic function, Electrolyte, Hepatitis, Cardiovascular risk, Rheumatism & Gout, Thyroid function test -Complete Blood Count (CBC) -Tumor markers(AFP, CEA, CA19-9, PSA (male), CA 125 (female)
Radiology	Chest X-ray, BMD (Bone Mineral Density)
Eye Exam	Vision, intraocular pressure, fundus
Basic Physical Measurements	Height, weight, body composition, BMI, blood pressure, Hearing test

HS_Elite

M: 1,800,000 KRW
F: 2,000,000 KRW

-Instruction and Prep

- Required time : 3 to 4 hours
- Prep : Fast for at least 8 hours
- Info of colonoscopy : Please refer to the separate instructions
- M2-PK : Collect the stool sample using the kit provided the day before and submit it on the day of your checkup

Category	Details
Genetic panel - 22/23 types	-Male : 22 types -Female : 23 types
MR (Choose one)	1. Brain 2. C-Spine 3. L-Spine 4. Cerebrovascular MRA
Coronary Artery Calcification CT	Coronary calcium scoring (heart disease risk assessment)
NK Cell Activity test	Natural killer cell / To assess your current immune status
Women exam	Mammography, Pap smear, Breast ultrasound
Chest(Lung) CT	Detect Lung cancer
Group A (Choose one)	1. Colonoscopy under or without sedation 2. M2-PK 3. 13 types of Heavy metal & Mineral test
Stomach exam (Choose one)	1. Gastroscopy under sedation 2. Gastroscopy without sedation 3. U.G.I (Upper Gastrointestinal) 4. Gastro panel (Blood test)
Ultrasound	Upper abdomen, Thyroid, Prostate (male), Uterus (female), Carotid, Echocardiography
Cardiovascular test	Electrocardiogram(EKG), Pulse Wave Velocity(Arteriosclerosis)
Urinalysis	Glucose, Bilirubin, Ketone body, S.G, PH, Protein, Urobilinogen, Nitrite, Uric blood, RBC, WBC
Blood test	-Liver function, Dyslipidemia, Kidney function, Diabetes, Anemia, Pancreatic function, Electrolyte, Hepatitis, Cardiovascular risk, Rheumatism & Gout, Thyroid function test -Complete Blood Count (CBC) -Tumor markers(AFP, CEA, CA19-9, PSA (male), CA 125 (female))
Radiology	Chest X-ray, BMD (Bone Mineral Density)
Eye Exam	Vision, intraocular pressure, fundus
Basic Physical Measurements	Height, weight, body composition, BMI, blood pressure, Hearing test

HS_Supreme

M: 3,300,000 KRW
F: 3,500,000 KRW

-Instruction and Prep

- Required time : Over 5 hours
- Prep : Fast for at least 8 hours
- Info of colonoscopy : Please refer to the separate instructions
- M2-PK : Collect the stool sample using the kit provided the day before and submit it on the day of your checkup
- PET-CT : Free cancellation up to 3 days before the appointment; a KRW 300,000 penalty will be charged for cancellations made within 2 days of the appointment

Category	Details
PET-CT (Cancer Screening)	Assessment for cancer metastasis (Brain + Torso) *CT Scan is not available with PET-CT
Genetic Panel – 44/45 types	-Male : 44 types -Female : 45 types
Alzheimer’s & Dementia Risk Assessment	Oligomeric Beta-Amyloid (Oligo Aβ) Test
MR (Choose two)	1. Brain 2. C-Spine 3. L-Spine 4. Cerebrovascular MRA
NK Cell Activity test	Natural killer cell / To assess your current immune status
Women exam	Mammography, Pap smear, Breast ultrasound, Masto-check, AMH, ROMA
Group A (Choose one)	1. Colonoscopy under or without sedation 2. M2-PK 3. 13 types of Heavy metal & Mineral test
Stomach exam (Choose one)	1. Gastroscopy under sedation 2. Gastroscopy without sedation 3. U.G.I (Upper Gastrointestinal) 4. Gastro panel (Blood test)
Ultrasound	Upper abdomen, Thyroid, Prostate (male), Uterus (female), Carotid, Echocardiography
Cardiovascular test	Electrocardiogram(EKG), Pulse Wave Velocity(Arteriosclerosis)
Urinalysis	Glucose, Bilirubin, Ketone body, S.G, PH, Protein, Urobilinogen, Nitrite, Uric blood, RBC, WBC
Blood test	-Liver function, Dyslipidemia, Kidney function, Diabetes, Anemia, Pancreatic function, Electrolyte, Hepatitis, Cardiovascular risk, Rheumatism & Gout, Thyroid function test -Complete Blood Count (CBC) -Tumor markers(AFP, CEA, CA19-9, PSA (male), CA 125 (female))
Radiology	Chest X-ray, BMD (Bone Mineral Density)
Eye Exam	Vision, intraocular pressure, fundus
Basic Physical Measurements	Height, weight, body composition, BMI, blood pressure, Hearing test

Men's Check up

M: 890,000 KRW

-Instruction and Prep-

- Required time : 2 to 3 hours

- Prep : Fast at least 8 hours

Category	Details
Detect Lung cancer	Chest CT
Stomach exam (Choose one)	1. Gastroscopy under sedation 2. Gastroscopy without sedation 3. U.G.I (Upper Gastrointestinal) 4. Gastro panel (Blood test)
Cardiology	Echocardiography, Soluble ST2 (Heart diseases risk early detection)
Ultrasound	Upper abdomen, Thyroid, Prostate
Male hormones	FSH + LH + Testosterone
Cardiovascular test	Electrocardiogram(EKG)
Urinalysis	Glucose, Specific Gravity, RBG, Protein, WBC, Bilirubin, Urobilinogen, pH, Urine sediment, Microscopy, Nitrite, Ketone Bodies
Blood test	Thyroid, Parathyroid, Liver, Cardiac, Renal & Pancreatic Function, Diabetes, Arthritis, Anemia, Hepatitis A/B/C, Lipid Profile, CBC Tumor Markers (AFP, CEA, CA19-9, PSA, Ferritin)
Radiology	Chest X-ray, BMD(Bone Mineral Density)
Eye exam	Vision, Eye pressure, Fundus
Basic Physical Measurements	Height, weight, body composition, BMI, blood pressure, Hearing test

Women's Check up

F: 990,000 KRW

-Instruction and Prep-

- Required time : 2 to 3 hours

- Prep : Fast at least 8 hours

Category	Details
Breast (Choose one)	1. Masto check 2. Breast ultrasound
Stomach exam (Choose one)	1. Gastroscopy under sedation 2. Gastroscopy without sedation 3. UGI (Upper Gastrointestinal) 4. Gastro panel (Blood test)
Ovary	ROMA (Ovarian cancer risk test), AMH (Anti-Mullerian Hormone)
Pathology	Pap smear, HPV(Human Papilloma Virus test)
Ultrasound	Upper abdomen, Thyroid, Uterus(womb)
Female hormones	FSH + LH + E2
Cardiovascular test	Electrocardiogram(EKG)
Urinalysis	Glucose, Specific Gravity, RBG, Protein, WBC, Bilirubin, Urobilinogen, pH, Urine sediment, Microscopy, Nitrite, Ketone Bodies
Blood test	Thyroid, Parathyroid, Liver, Cardiac, Renal & Pancreatic Function, Diabetes, Arthritis, Anemia, Hepatitis A/B/C, Lipid Profile, CBC Tumor Markers (AFP, CEA, CA19-9, CA 125, CA15-3)
Radiology	Chest X-ray, BMD(Bone Mineral Density)
Eye exam	Vision, Eye pressure, Fundus
Basic Physical Measurements	Height, weight, body composition, BMI, blood pressure, Hearing test

Youth Check up

M/F : 300,000 KRW

-Instruction and Prep-

- Target age : 8-19 years old
- Required time : 2 to 3 hours
- Prep : Fast for at least 8 hours

Category	Details
Vitamin D test	Vitamin D test for essential nutrient levels
Immune function test	NK Cell Activity test
Allergy test (118 Allergens)	Food & Inhalant Allergy test
Ultrasound	Upper abdomen
Cardiovascular test	Electrocardiogram(EKG)
Urinalysis	Glucose, Specific Gravity, RBG, Protein, WBC, Bilirubin, Urobilinogen, pH, Urine sediment, Microscopy, Nitrite, Ketone Bodies
Blood test	Thyroid, Parathyroid, Liver, Cardiac, Renal & Pancreatic Function, Diabetes, Arthritis, Anemia, Hepatitis Immunity (A/B/C), Lipid Profile, CBC
Radiology	Chest X-ray
Eye exam	Vision
Basic Physical Measurements	Height, weight, body composition, BMI, blood pressure, Hearing test

Couples Check up

M/F : 1,500,000 KRW

-Instruction and Prep-

- Recommended age : 20s~60s
- Required time : 2 to 3 hours
- Prep : Fast for at least 8 hours
- Info of colonoscopy : Please refer to the separate instructions
- M2-PK : Collect a stool sample using the provided kit the day before the check up and submit it on the day of your visit
- No sedation for patients age 73 +

Category	Details
Brain health assessment	Brain MRI
Cardiovascular risk assessment	Coronary Artery Calcium CT + Homocysteine
Alzheimer's & Dementia Risk Assessment	Oligomeric Beta-Amyloid (Oligo A β) test
NK Cell Activity test	Natural killer cell / To assess your current immune status
Women exam	Pap smear, Mammography
Colon exam (Choose one)	1. Colonoscopy under sedation 2. Colonoscopy without sedation 3. M2-PK
Stomach exam (Choose one)	1. Gastroscopy under sedation 2. Gastroscopy without sedation 3. UGI (Upper Gastrointestinal) 4. Gastro panel (Blood test)
Ultrasound	Upper abdomen, Thyroid, Prostate(male), Uterus(female), Carotid, Echocardiography
Cardiovascular test	Electrocardiogram(EKG), Pulse Wave Velocity(Arteriosclerosis)
Urinalysis	Glucose, Specific Gravity, RBG, Protein, WBC, Bilirubin, Urobilinogen, pH, Urine sediment, Microscopy, Nitrite, Ketone Bodies
Blood test	Thyroid, Parathyroid, Liver, Cardiac, Renal & Pancreatic Function, Diabetes, Arthritis, Anemia, Hepatitis A/B/C, Lipid Profile, CBC Tumor Markers (AFP, CEA, CA19-9, PSA (Male), CA 125 (Female))
Radiology	Chest X-ray, BMD(Bone Mineral Density)
Eye exam	Vision, Eye pressure, Fundus
Basic Physical Measurements	Height, weight, body composition, BMI, blood pressure, Hearing test
